

**Biography**

Dr. Mark G. Allen received the B.A. degree in Chemistry, the B.S.E. degree in Chemical Engineering and the B.S.E. degree in Electrical Engineering from the University of Pennsylvania, and the S.M. and Ph.D. (1989) from the Massachusetts Institute of Technology. In 1989 he joined the faculty of the Georgia Institute of Technology, where he holds the rank of Regents' Professor in the School of Electrical and Computer Engineering and the J.M. Pettit Professorship in Microelectronics, as well as a joint appointment in the School of Chemical and Biomolecular Engineering. He also holds the position of Senior Vice Provost for Research and Innovation at Georgia Tech. His current research interests are in the field of microfabrication and nanofabrication technology, with emphasis on new approaches to fabricate devices with characteristic lengths in the micro- to nanoscale from both silicon and non-silicon materials. Professor Allen was the co-chair of the 1996 IEEE/ASME Microelectromechanical Systems Conference, and is North American editor of the Journal of Micromechanics and Microengineering.
